AMENDMENT AFTER FINAL

Commissioner of Patents
and Trademarks
Washington, D.C. 20231

Dear Sir:

The enclosed Amendment responds to the final office action mailed to the applicant by the PTO on August 4, 1994 and a telephone call from the Examiner on September 13, 1994.

The Commissioner is hereby authorized to charge any additional fees which may be required by this amendment, to Deposit Account No. 06-1300 (Order No. A-54591/GSW).

IN THE SPECIFICATION:

Add the following abstract:

An information broadcasting system provides a large number of subscribers access to a large amount of information using one or more satellite transmission channels. The system can also use cable television transmission channels. A program supplier station stores an information database and tags all the information in the database with indices so as to form a single hierarchical structure which encompasses the entire information database. Portions of the information database are transmitted often, at least once per day, in order to provide the basic
